Ribbon

Copyright Michelle Van Etten

Directions:

1. Using Rock Princess cut out of black cardstock a 3 inch skull with bow and the Glam baby Phrase at 2.5 inches in black. Also cut out the glam baby phrase with shift lock on.
2. Create 2 screens the first will have the whole saying and the second the top layer of the words.
3. Screen print in black skull with bow. Let dry completely you can even set the color by ironing.
4. Next lay the second screen over the design and screen print the words glam baby in Fuchsia.
5. Hand paint the eyes and nose and heat set the ink before adding the details.
6. Using I-Rock tool add the white rhinestones for the eyes, nose and the word Glam. Use the black rhinestones to outline the black of the princess skulls face. I used larger stones at the bottom of the mouth.
7. Create a cute pink bow and add to the top of her head add a black large rhinestone
