

Holiday Advent Calendar

This project uses a wooden Advent mini cupboard from a craft store.

Supplies:

Advent cupboard

White paint

Glue Stick

Modge Podge

Tacky Glue

Pink and Green cardstock

Cuttlebug

Letter Dies for the Cuttlebug

Cardboard Tree Form

Green teeshirt yarn

Pearl top pins

Pink novelty ribbon

Step 1. Paint the advent cupboard all over with white paint, making sure to not paint over the handles, remove them if you have to.

Step 2. Grab your pink and green card stock and cut out numbers 1 - 25 on the Cuttlebug using Cuttlebug alpha/number dies.

Step 3. Glue the numbers 1 - 25 onto each of the doors with a glue stick. Once they are all on go over top of them with Modge Podge to ensure they stay on for a good long time.

Step 4. Put a bead of tacky glue all the way around the bottle of the cupboard and cover it with a pink novelty ribbon.

NOTE: you may want to use sewing pins to hold the ribbon in place so it doesn't slide down.

Step 5. Grab your cardboard Christmas tree form and a roll of pre-made tee shirt yarn. If you need a refresher on how to make tee-shirt yarn visit www.lovelylula.com. Wrap the tree from bottom up with the green teeshirt yarn, occasionally running beads of glue to hold it in place on the cardboard form. Set aside to dry.

Step 6. Once the tree is dry use sewing pins with pear ends and push them through the extra numbers you have sitting around and then through the tree form.

Step 7. On the top of your Advent Calendar Cupboard glue down some pink cardstock and green polka-dot.

Set in place for the holidays - Enjoy!
